Noida, Aug 01, 2026: APL Apollo Tubes Limited (APL Apollo), India's leading branded structural steel tube company, today announced its financial results for the quarter ending June 30, 2026.

Mr. Sanjay Gupta, Chairman, APL Apollo, comments on Q1FY27 results

"The company reported Q1FY27 sales volume of 744,823 Ton which was below our own expectations. The demand for the structural steel tubes was soft due to the geopolitical situation and challenging macroeconomic environment. However, the quarterly EBITDA of Rs5,522 per ton demonstrates APL Apollo's strengths such as improving sales mix and brand power. Better margins resulted in EBITDA growth of 11% YoY and Net Profit growth of 11% YoY.

We expect demand conditions to improve in the coming quarters on the back of an improved government budget allocation for the infrastructure sector. We are ready with our capacity, product range, distribution network and brand pull. Henceforth we expect 2HFY27 to perform much better than 1HFY27. The company's commitment to delivering exceptional quality, coupled with its unwavering dedication to customer satisfaction, has propelled it to the forefront of the industry. We continue to remain prudent with our working capital management, which remains best in the construction material sector".
